Las Colinas Plant

Silao, Guanajuato February 28th, 2020

Dear Supplier,

As you may know, there is a global contingency caused by COVID-19 outbreak.

This issue is having different impacts worldwide, one of the main concerns we got is the lack of containers due to most of them are stranded in Asia with few possibilities of leaving the region without previous sanitary cleanliness. As of today, there is no confirmation of when this contingency will be over.

Continental Automotive Mexicana, Las Colinas Plant has started preventive actions to avoid any impact caused by delays in Transit Times since our forwarder Hellmann Worldwide Logistics has already informed it is a latent risk.

One of the mentioned preventive actions we are taking is kindly asking your support **shipping ONE WEEK in advance the open requirements shown in your release starting on CW 10.**

If you can not meet our requirements please get in touch as soon as possible with your main logistic contact in Las Colinas Plant.

Please consider this requirement and preventive actions is applicable exclusively for Las Colinas Plant.

Thank you in advance for your cooperation.

Best Regards,
